DirectPrint Interface from VR★

Ballot Printing System

EViD★ → Laptop → Printer → Ballot → VOTE

DirectPrint

EViD★ → COTS PRINTER → Ballot → VOTE

DirectPrint is a licensed based add-on that can be purchased by VR customers who use EViD and/or Voter Focus and who wish to eliminate the need for intermediary laptops and other equipment for printing out ballots.

DirectPrint represents full interoperability between EViD and/or Voter Focus to prequalified Commercial-off-the-Shelf (COTS) printer machines.

@VRELECTIONS

To Find Out More or to schedule a demo, call 850.668.2838 or email sales@vrsystems.com.

Features:

- ballot tracking in support of ballot accountability

- flexibility to choose from lower cost commercially available printing equipment

- reduces maintenance and consumable costs

- ideal for counties who want to maintain and oversee their own ballot printing equipment

- eliminates per ballot click charges
